

Comparison of total number of documents retrieved per query using Lucene's scoring function vs. using BM25 search engine

	Query	Total number of docs retrieved(BM25)	Total number of docs retrieved(Lucene)
1	portable operating systems	871	440
2	code optimization for space efficiency	1632	1579
3	parallel algorithms	1386	272
4	parallel processor in information retrieval	1540	1529
