1) A list of the PageRank values obtained for each of the six vertices after 1, 10, and 100 iterations of the PageRank algorithm.

Iteration 1 Results

Page rank of A is 0.2493055555555556

Page rank of B is 0.119444444444445

Page rank of C is 0.14305555555555555

Page rank of D is 0.13125

Page rank of E is 0.2138888888888888

Page rank of F is 0.14305555555555555

Iteration 10 Results

Page rank of A is 0.2526524506150375

Page rank of B is 0.1395550023626756

Page rank of C is 0.151559179065915

Page rank of D is 0.11906808910508244

Page rank of E is 0.18734019939499408

Page rank of F is 0.15154226794449255

Iteration 100 Results

Page rank of A is 0.2521271053751956

Page rank of B is 0.1393061853185386

Page rank of C is 0.1513064898667053

Page rank of D is 0.11890782257353921

Page rank of E is 0.18704590699931614

Page rank of F is 0.1513064898667053

2) The perplexity values obtained in each round until convergence for the in-links file for the WT2g

ITERATION	PERPLEXITY VALUE

4) Analysis for the top 10 Document ids by Page rank in Lemur web interface.

SI	Documents		In- link	
no	id	Page Rank	count	Analysis
1	WT21-B37- 76	0.00269447441554888	2568	The Economist homepage This page is the homepage of The Economist magazine. It has the highest in-link count of 2568. Since this is the homepage of a popular magazine, there are many in links from other web pages including important web pages with high page rank values. This webpage is more likely to be the one which the user wants to see in response to a query.
2	WT21-B37- 75	0.00153317909999839	1704	The Economist: Copyright Notice Page. This is the Copyright Notice Page of The Economist. It has link from Economist home page which has the highest page rank. In addition, it has links from all the other webpages in The Economist .So, for this reason, Copyright notice page has a higher page rank with in-links of high quality and rank. This web page might not be an important result to user's search query. This is because, a user querying 'The Economist' in most cases does not mean the Copyright notice page. The might want to navigate to home page of The Economist and/or other articles in the Economist.
				Security Assurance Requirements There are 169 in-links to this page. Of all the pages that contribute to this webpage, WT25-B38-117
3	WT25-B39- 116	0.00146850141632585	169	and WT25-B39-116 and has 4 and 169 in-links respectively. All other documents have 0 in-links. WT25-B38-117 is the 'Introduction and General Model' i.e. Part 1 and WT25-B39-116 is

				the same document itself. (Part 3). The majority of the page rank
				contribution comes from the same page.
	WT23-B21-		100	Web Development Team This page contains information about the web development team for http://www.sea.usscouts.org/ This page includes links to the various members of the web development team who are also the members of sea exploring committee. So a user might want to go to this page to gather information about the team and also contact them when they have queries. In addition, the individual team member page has a
4	53	0.00137352493842574	198	link back to this page. All these contributed to its page rank. Information of Psychiatry Star project
				What is Psychiatry Star? This page has links to Program Director and other people in this project. They have many team members and each of them have link back
_	WT24-B26-	0.00427645674442040	204	to this page. Anyone who visits the team member web page might be interested in Psychiatry Star and want to visit this page for more information. Also, the team member pages have a high page
5	10	0.00127615674413019	291	rank value. A user is likely to visit this page. The Evening News on the Internet every weeknight
6	WT24-B40- 171	0.00124529321760879	270	This webpage has links to many news articles. Also news is a most common query term. A user is likely to visit this page.
7	WT23-B39- 340	0.00124291315832404	274	STREETLINK FINANCIAL REPORTS This web page has financial reports of various companies and the page rank is high since this web page has link back from all the company reports. A user is likely to visit this page.
8	WT23-B37- 134	0.00120542141122597	207	Disclaimer and Copyright information of http://www.public.health.wa.gov.au. All the academic articles in this webpage have a disclaimer information. In addition, home page has a link to this page. Since this website is the Western Australian Government's public health web page, many people visit this website. But disclaimer and copyright information page may not be important for a user.
9	WT08-B18- 400	0.00114477728783794	990	General Disclaimer of tdbank.com This page does not have any out-link and hence is a sink node. This page has a high page rank since all documents in this website would include disclaimer. This page may not be important for a
	WT13-B06-			Web Development page of www.lawlead.com This web page has just two out links. All the pages in the website has link to webmaster (credits) information of the given page. This page might not be important for the user. This page has a high page rank since all the pages in the website have link to the credits
10	284	0.00113655800531197	454	information.

Summary: There are few pages like home page and other articles which a user is likely to visit. But there are other pages like copyright information/Disclaimer, which has a higher page rank because all the webpages in the particular website has a link to these. Also some pages with high in-link count might have high Page rank value since some of the in-link pages have high page rank value.

According to the analysis,

1) The webpages which are more likely to be the one which the user wants to see in response to a query:

The Economist homepage, Security Assurance Requirements, What is Psychiatry Star?, The Evening News, STREETLINK FINANCIAL REPORTS

2) The webpages which are likely to be the one which the user wants to see in response to a query:

Web Development Team of http://www.sea.usscouts.org/ and Web Development page of www.lawlead.com

3) Document that are least interesting to the user

The Economist: Copyright Notice Page. General Disclaimer of tdbank.com

Disclaimer and Copyright information of http://www.public.health.wa.gov.au.

5) Analysis for the top 10 Document ids by in-links in Lemur web interface.

0	VV 127-D32-3U	020	0.000300680146133429	board. Hence it has a high in-link count.
				Intelligent information- search page. Search page has links from
9	WT25-B15-307	605	0.000797223535250271	all the articles. Hence the in-link count is high.
				http://ada.computer.org home page.
				All the pages in the website has link to the homepage. Hence in-
10	WT27-B28-203	589	0.000627079718836486	link count is high.

Summary: Pages with high in-link count might or might not have a high Page rank value depending on the Page Rank of the incoming link. But high in-link count does not mean that the page is important. Some pages like search page, disclaimer, terms & conditions, FAQ pages have links from many pages but that does not mean that they are important nor are they likely to be the one which the user wants to see in response to a query.

E.g.: Intelligent information- search page, WWWBoard Frequently Asked Questions and Answers, DRCNet Online Library of Drug Policy Search page, The Economist: Copyright Notice Page.
